

spectar™

WHY TOP GCs USE SPECTAR

July 2022

Spectar connects design, build, and handover teams.

Jobsite BIM for general contractors

1 INFORMATION BRIDGE

2 FULLY DIGITAL

3 IN THE LOOP

4 OWNER WALKTHROUGHS

Construction stakeholders need to be in near constant communication. While BIM fulfills the promise of digital collaboration, it was mostly inaccessible in the field – until now

Spectar's Value to General Contractors

Information Bridge

Spectar provides an information-rich jobsite through Augmented Reality.

Fully Digital

Spectar allows quick issuance of field requests by attaching comments directly to BIM elements.

In The Loop

Spectar ensures everyone on the project is aware of decision-making and makes the most of field abilities.

Owner Walkthrough

Spectar is a time machine that allows owners to navigate all stages of the project.

Let's get to work.
